Birmingham City Council

Is the individual a staff member or pupil?

Staff

The member of staff is directed to go home to self-isolate and get tested for COVID-19. See: https://www.nhs.uk/ask-for-a-coronavirus-test

(or contact NHS 119 via telephone)

Has the member of staff tested positive for COVID-19?

Yes

The staff member is to immediately self-isolate for 10 full days from the first day of symptoms (or test date if asymptomatic) and their household is to self-isolate immediately for a period of 10 full days from the date they last had contact with the positive case. **Day 1 is the day <u>after</u> symptom onset (or test date).**

The positive case can come out of isolation, returning to school on day 11, provided they have been fever-free for 48 hours

If contacts do develop symptoms, then they need to start a fresh 10-day isolation period

Email a completed checklist to the BCC Public Health Team at contacttracing@birmingham.gov.uk

Was the staff member in close contact with anyone in the setting 2 days prior to either symptom onset or test date? (whichever is earliest)

No

Only the staff member is to immediately self-isolate for 10 days from the onset of symptoms (or test date if asymptomatic) and their household is to self-isolate immediately for a period of 10 days.

Yes

The close contacts must isolate for 10 full days from the date they last had contact with the positive case. **Day 1 is the day <u>after</u> the last date of contact with the case**, returning to school on day 11.

No

The staff member can return to work when feeling better

Pupil

The pupil is taken to a designated isolation area, which is either a well-ventilated room or area where two-metre social distancing can be adhered to. The pupil uses a separate toilet if required, where possible.

The pupil's parents are informed and asked to collect their child.

The pupil is supervised in the isolation area by a member of staff, if required.

Can a 2-metre distance be maintained between the supervising staff and the pupil within the isolation area?

Yes

the pupil is able to follow social distancing rules.

No

the pupil is unable to follow social distancing rules due to their lack of understanding of the rules or their needs which require close contact with a member of staff, e.g. increased medical needs.

The supervising member of staff wears PPE; Disposable gloves, a disposable apron and a fluid-resistant surgical face mask.

Eye protection should also be worn if there is a risk of splashing to the eyes, for example from coughing, spitting or vomiting.

Once the pupil has been collected by their parents, safely dispose of the PPE. The supervising staff member to wash their hands for at least 20 seconds after caring for the pupil.

The isolation area and any subsequent areas the pupil visited, e.g. toilet, are cleaned once the pupil has been collected.

Check the following advice: https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings

Encourage the pupil's parents to get their child tested for COVID-19. (You can request a test by visiting: https://www.nhs.uk/ask-for-a-coronavirus-test or contact NHS 119 via telephone).

Has the pupil been tested for COVID-19?

Yes

Were the results positive for COVID-19?

Yes

The pupil is to self-isolate for 10 full days from the first day of symptoms (or test date if asymptomatic) and their household is to self-isolate immediately for a period of 10 full days from the date they last had contact with the positive case. **Day one is the day <u>after</u> symptom onset or test date**. The case can come out of isolation, returning to school on day 11, provided they have been fever-free for 48 hours. If contacts do develop symptoms, then they need to start a fresh 10-day isolation period.

Email a completed checklist to the BCC Public Health Team at contacttracing@birmingham.gov.uk

Was the child in close contact with anyone in the setting 2 days prior to either symptom onset or test date (whichever is earliest)?

Yes

The close contacts must isolate for 10 full days from the date they last had contact with the positive case. **Day 1 is the day after the last date of contact with the case**, returning to school on day 11.

No

Only the pupil is to immediately self-isolate for 10 **full days** from the first day of symptoms (or test date if asymptomatic) and their household is to self-isolate immediately for a period of 10 full days from the date they last had contact with the positive case**. Day 1 is the day after symptom onset, test date or contact**

No

The pupil can return to school when feeling better

No

The pupil is to self-isolate for 10 **full** days from the first day of symptoms and their household is to self-isolate immediately for a period of 10 full days from the date they last had contact with the positive case. . **Day one is the day after symptom onset** The positive case can come out of isolation, returning to school on day 11, provided they have been fever-free for 48 hours.

If contacts do develop symptoms, then they need to start a fresh 10-day isolation period.

Has the member of supervising staff or any individuals in the pupil's bubble developed symptoms of COVID-19?

Yes

Symptomatic individuals are sent home to self-isolate for at 10 days and the procedure for testing is followed.

No

The bubble can remain in school
