Advice to All Parents - warn and inform

Dear Parents,

We have been advised by Public Health England that there has been of a confirmed case of COVID-19 within the school. The staff and pupils who have mixed closely with the confirmed case have been advised to have a PCR test and remain at home until they receive a negative result, as this helps to further reduce the risk.

We know that you may find this concerning, but we are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

We encourage household members that are aged 11 and over to continue with twice weekly LFD testing to help identify cases promptly.

If you think your child is a close contact but has not have not been contacted directly by NHS Test and Trace please follow the guidance here <https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person#i-think-i-have-had-contact-with-someone-who-has-tested-positive-for-covid-19-but-i-have-not-been-notified-and-advised-to-self-isolate-what-should-i-do>

The letter is available on the school website so you can click onto the link.

What to do if your child develops symptoms of coronavirus (COVID-19) or tests positive for COVID-19

If your child develops symptoms of coronavirus (COVID-19), they should get a PCR test and remain at home at least until the result is known. If negative, the child can end self-isolation; if positive, the child should isolate until at least 10 days after their symptoms appeared. Symptoms of coronavirus (COVID-19) are a new, continuous cough, or a high temperature, or a loss of, or change in, their normal sense of taste or smell (anosmia). If the child has a positive test result but do not have symptoms, they should stay at home and self-isolate for 10 days from the date the positive test was taken. This isolation period will be extended if they go on to develop symptoms by counting 10 full days from the day following their symptom onset. Anyone with symptoms will be eligible for a PCR test (the normally available test type) and this can be arranged via Get a free PCR test to check if you have coronavirus (COVID-19) - GOV.UK ([www.gov.uk](http://www.gov.uk)) or by calling 119.

CLASSIFICATION: UNCLASSIFIED

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

### How to stop coronavirus (COVID-19) spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with coronavirus (COVID-19):

- get vaccinated – everyone aged 18 and over can book COVID-19 vaccination appointments now and 16-17 year olds are being offered 1 dose of the vaccination by 23 August
- wash your hands with soap and water or use hand sanitiser regularly throughout the day
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards
- meet people outside and avoid crowded areas
- open doors and windows to let in fresh air if meeting people inside
- wear a face covering if aged 11 and over when it's hard to stay away from other people – particularly indoors or in crowded places
- participate in twice weekly LFD testing following national guidelines (recommended for 11 years and over). We encourage you to log your results here: <https://www.gov.uk/log-test-site-covid19-results>

### Further Information

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Yours sincerely

Denise Fountain
